1" NOZZLE
STRAINER
BULLETIN 152
(07/00)

HEAVY DUTY NOZZLE STRAINER 1" NPT

This simple product serves an important function, providing a "last line of defense" to prevent you from dispensing debris from your nozzle. Our heavy duty strainer is made of 6061-T6 aircraft grade aluminum with a 100 mesh 300 series stainless steel cone strainer and Dupont Viton gasket, compatible with almost any liquid product from motor oil to Avgas. It was developed primarily for use with the OPW 7 series automatic nozzle, an excellent nozzle, but due to being automatic, it cannot accept a spout strainer. Fits any 1" npt nozzle. Do not use nozzles with hold-open devices for aviation fuels or self-service installations.

Discover small problems *before* they become big ones.
Protect your customer from inadvertent contamination.
Easily Inspected and cleaned.
Mounts simply between the hose and the nozzle.
Good for Gasoline, Diesel, Oils and Lubricants.
Quality construction, Including hard-coat anodizing
on male threads.

GTP-8923 1" FEMALE INLET, 1" MALE OUTLET ASSEMBLY

AVAILABLE ACCESSORIES:

Heavy Duty Static Bonding and Grounding Cable - To attach to any 1" nozzle, allows you to bond the nozzle to the tank **BEFORE** you remove the tank cap and maintain that bond reliably. The cable is a full 4' of heavy 1/8" vinyl coated 7x7 galvanized steel with a heavy duty MIL-SPEC die cast aluminum clamp.
GTP-9012

Heavy Duty Dust Cap - (Fits OPW-7 nozzles) Keeps debris from entering the nozzle spout when not in use. Not compatible with some gasoline dispensers with the nozzle storage built in. Solid Urethane, precision cast, good from -40 to +200 degrees Fahrenheit.
